EXPERIENCE

Web Developer Intern

AUG 2023 - NOV 2023

Crystal Delta Solutions, Chennai

- Developed a fully functional e-commerce website, focusing on enhancing user experience and functionality.
- Designed and implemented a responsive login page using HTML, CSS, and JavaScript, ensuring a seamless user authentication process.
- Created a dynamic and user-friendly navigation bar with React.js, improving site navigation and accessibility.
- Collaborated with the development team to integrate front-end elements with back-end services, ensuring smooth operation and user satisfaction.

Quizaro ExtendedEdge, Bangalore

- Conducted thorough data cleansing to ensure accuracy and integrity of datasets, identifying and correcting inconsistencies and errors.
 - Performed extensive data analytics using statistical methods and tools to derive meaningful insights and support data-driven decision-making.
 - Utilized Python and data science libraries such as Pandas, NumPy, and Matplotlib to manipulate and visualize data effectively.
 - Collaborated with cross-functional teams to understand business requirements and deliver actionable insights.
-

PROJECTS**To-Do List Application**

- **Description:** Developed a fully functional to-do list web application that enables users to manage and organize daily tasks with ease. The application allows users to add, update, delete, and mark tasks as completed. It offers a clean, minimalistic interface, ensuring an efficient task management experience.
- **Technologies Used:** HTML, CSS, JavaScript, Bootstrap
- **Task Management:** Users can add, edit, and delete tasks, providing a comprehensive solution for daily to-do lists.
- **Completion Tracker:** Tasks can be marked as completed with a toggle, ensuring users can track their progress.
- **Responsive Design:** Optimized for various screen sizes, ensuring a smooth user experience across desktop and mobile devices.
- **Local Storage Integration:** Uses browser local storage to persist tasks across sessions, so users' tasks remain even after closing the browser.
- **Intuitive UI:** A clean and straightforward layout built with Bootstrap, providing a user-friendly and visually appealing interface.

E-Commerce Website

- **Description:** Built a dynamic e-commerce website that facilitates product browsing, ordering, and payment processing. The site features user authentication, a shopping cart, and an admin panel to manage products and orders. Designed with a focus on enhancing user experience and ease of navigation, the site is responsive and scalable to accommodate various screen sizes and devices.
- **Technologies Used:** React.js, Bootstrap, MySQL, GitHub
- **User Authentication:** Secure user login and registration system, allowing customers to access personalized dashboards and track their orders.
- **Product Catalog:** Users can browse a wide selection of products, filter by category, and view detailed product pages with images, descriptions, and prices.
- **Shopping Cart & Checkout:** Users can add products to the cart, adjust quantities, and proceed to checkout, where they can input shipping details and make payments.
- **Admin Panel:** A backend panel for administrators to manage products, update stock levels, and process customer orders.
- **Database Integration:** MySQL database is used to store product and user data, allowing dynamic updates and easy retrieval of information.
- **Responsive Design:** Built with Bootstrap to ensure a seamless shopping experience across mobile and desktop platforms.
